

Childhood Learning Transcript

About 80% of childhood learning occurs through visual processing.

Yet 1 in 4 children have some kind of vision problem—and most of those go undiagnosed.

Because while some schools perform initial vision screening, only an annual comprehensive vision exam can diagnose a learning-related vision problem.

Make sure your child's eyesight isn't making learning harder than it should be

Check yes today and make an appointment with an eye doctor near you.

SUPERS:

America's largest vision care network.

Discounts of up to 72% and exclusive offers on premium brands.

Easy to understand. Easy to use. Easy to save.
